The Blockchain Bridge

Connectivity, Security, Accountability

GetChkd utilizes blockchain technology as an infinitely scalable, global connector of systems and verticals. The GetChkd platform creates a connected, secure network of locations, facilities, data, and user's, with real-time audit trails for accountability.

Our platform makes it easy to secure & share verified data, assets, identity, and preferences across all platforms—hardware, software, devices, and apps—all while maintaining users' privacy & confidentiality.
